Education

2013/09 → 2015	**EPITECH Master of Computer Science**, *EPITECH*, Rennes, France.
2009 → 2012	**EPITECH Bachelor of Computer Science**, *EPITECH*, Rennes, France.
2008 → 2009	**Baccalaureate**, *Lycée St Joseph*, Landerneau, France.

Professional Experiences

May 2012 → August 2012	**Internship**, *Alcatel-Lucent*, Brest, France. Programming VmwareLabManager API and Bash Unit testing API whole this in a Agile project management environment. Firstly, In order to have automatic actions on the Vmware servers, I have proposed to program a API in BASH scripting which use the WSDL protocol (see my github). Secondly, my teams needed to have unit test for their installer in BASH, so I programmed a API with "ShUnit" Agile SCRUM - Bash - Linux
July 2010 → December 2010	**Internship**, *Alcatel-Lucent*, Brest, France. Programming a GUI tool to generate XML files for PABX server in a Agile project management environment. My teams spent lot of time to write xml files which described the call strategy for a PABX server. I programmed a GUI tool with a main panel to design a UML modeling. Then with a simple click, the xml file was ready to use. Graphic tool to generate calls strategies for phone server Agile SCRUM - Java

Skills

Programming

Software	C/UNIX, C++, ASM (x86)	Web	HTML5/CSS, PHP, JavaScript
Scripting	Python, Bash	Other	LaTeX

General culture

System Administration	ArchLinux, Debian, Ubuntu, *BSD Windows	Networking	basic knowledge of network architecture

Languages

French	**read, write, speak**	*native language*
English	**read, write, speak**	*basics*

Centers of interest

Hobbies	Spearfishing, Reading
Associations	In charge of EPITECH Rennes' security lab (2010-2012)
